

⁵Risks were estimated using Monte Carlo simulation runs; at the 95th percentile level, calculated risks were found to be below this level 95% of the time.

⁶The lower risk was obtained by using the one detected value (a "J-value" below the quantitation limit) as one of the two high-end parameters.

⁷The lower risk was obtained by using only the J-value in the Monte Carlo simulation runs.

TABLE III.—NON-GROUNDWATER RISKS FOR PETROLEUM RESIDUALS IN LAND TREATMENT UNITS

Individual waste streams	On-site land treatment unit high-end total carcinogen risk				Off-site land treatment unit high-end total carcinogen risk

Land Disposal Restrictions—Phase IV: Treatment Standards for Characteristic Metal Wastes; Notice of Data Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Extension of the comment period.

SUMMARY: EPA has received requests to extend the comment period on the notice of data availability (NODA) published in the **Federal Register** on March 5, 1997 (62 FR 10004). The NODA solicited public comments on studies, and the results of a Peer Review of those studies, pertaining to whether the addition of iron filings (and iron dust) to lead-contaminated spent foundry sand is a means of diluting the waste impermissibly rather than treating it to conform with the requirements of the LDR rules. The NODA addressed whether this practice stabilizes (or otherwise treats) lead, the chief hazardous constituent found in the spent sand, so that the lead will not migrate through the environment when the spent sand is land disposed. This document extends the comment period for the NODA for 30 days.

DATES: Comments are due by May 8, 1997.

ADDRESSES: To submit comments, the public must send an original and two

copies to Docket Number F-97-PH3A-FFFFF, located at the RCRA Docket. The mailing address is: RCRA Information Center, U.S. Environmental Protection Agency (5305W), 401 M. Street, SW, Washington, DC 20460. RCRA Information Center is located at 1235 Jefferson Davis Highway, First Floor, Arlington, Virginia. The RCRA Information Center is open for public inspection and copying of supporting information for RCRA rules from 9:00 a.m. to 4:00 p.m. Monday through Friday, except for Federal holidays. The public must make an appointment to review docket materials by calling (703) 603-9230. The public may copy a maximum of 100 pages from any regulatory document at no cost. Additional copies cost \$0.15 per page.

FOR FURTHER INFORMATION CONTACT: For general information or to order paper copies of this **Federal Register** document, call the RCRA Hotline. Callers within the Washington, Metropolitan Area must dial 703-412-9810 or TDD 703-412-3323 (hearing impaired). Long-distance callers may call 1-800-424-9346 or TDD 1-800-553-7672. The RCRA Hotline is open Monday-Friday, 9:00 a.m. to 6:00 p.m., Eastern Standard Time. For information on this notice, contact Mary Cunningham at (703) 308-8453, John Austin at (703) 308-0436 or Rhonda Craig at (703) 308-8771, Office of Solid Waste, 401 M Street, SW, Washington, DC 20460.

Fisheries of the Northeastern United States; Fishery Management Plan for the Summer Flounder, Scup, and Black Sea Bass Fisheries; Recreational Measures for the 1997 Summer Flounder Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule, request for comments.

SUMMARY: NMFS issues this proposed rule to amend the regulations implementing the Fishery Management Plan for the Summer Flounder, Scup, and Black Sea Bass Fisheries (FMP). This rule proposes a possession limit of 10 fish per person and a minimum fish size of 14.5 inches (36.8 cm) for the 1997 summer flounder recreational fishery. The intent of this rule is to comply with implementing regulations for the fishery that require NMFS to publish measures for the current fishing year that will prevent overfishing of the resource.
